Introduction

I created this brief document to provide some resources that will hopefully allow people to explore the covert (occult) and/or overt usage of advanced technologies for a number of years in various strange events. The information contained in this document is only the “tip of the iceberg”. There is a whole lot more that is going on in the shadows. Remember that the usage of advanced technologies on Planet Earth and/or in our Solar System goes back many thousands, millions, and/or billions of years.

This information is not fully discussed (or discussed at all) by the “corporament”.

In the USA, the “corporament” exists as the:

military (defense/offense) + industrial + academic (schooling — at all levels — as prison) + “corporament” entertainment (Hollywood, media, advertising/consumerism/commercialization, propaganda/psychological warfare) + judicial (defense and prosecutorial lawyers, judges, law enforcement/police, prisons) + financial (banks, accounting firms) + religion + petrochemical/pharmaceutical (drugs, antibiotics, antibacterials, vaccines, pesticides — toxins to kill or put you at “dis-ease” and drugs to “treat” you) + imperial commu-soci-capitofasdemorepubcracism system/society/economy/Western thinking = Military-industrial-academic-“corporament” entertainment-judicial-financial-religion-petrochemical/pharmaceutical complex.

Commu-soci-capitofasdemorepubcracism is derived from communism, socialism, capitalism, fascism, democracy, and republic as these concepts all have the same root. The complex was originally defined in the aforementioned article [https://www.utdailybeacon.com/opinion/our-government-can-not-be-trusted/article_81932d59-0861-5647-87b2-901d4d5cabd8.html | Our government can not be trusted by Irucka Ajani Embry, Monday, 26 August 2002, *The Daily Beacon*. Also, the article can be found by searching at <https://www.questionuniverse.com/oldway/columns.html>.], but it has been recently revised to reflect a new understanding of the complex’s nature.

South China Morning Post: Chinese military scientists claim to have achieved a 'huge breakthrough' on laser weapon technology: High-energy laser weapons can now operate 'infinitely', thanks to a new cooling system that completely eliminates the build-up of waste heat: The technology could significantly change the face of battle by extending engagement times, and increasing range and damage, researchers say

Revisiting Dr. Judy Wood — Because She's Right About 9/11: Dr. Wood's book *Where Did The Towers Go: Evidence of Directed Free-Energy Technology on 9/11* deserves attention. Its 500 pages provide compelling evidence that the towers were made to go 'poof' by very advanced technology. And we can also conclude that that technology could instead be harnessed for the good of humankind.
